NEWS AND ACTIVITIES OF THE LINCOLN SKY KNIGHTS R/C CLUB

President's Message

Here we are in July, with half the year gone and little in the way of flying weather. Well my friends those days are coming and when you are at the field I would ask that you keep in mind that we are a club and others may need to use the starting stands or taxi ways and keep consideration of others in mind when your all enjoying the hobby we love. The Tuesday evening flying seems to be going well according to Rick. If you have the time to stop out and show your support and maybe lend a hand. May you have the same number of landings as take-offs! - Alan

Secretary's Report

President Alan Zinnecker called the meeting to order at 7:30 PM. Minutes for the May meeting were accepted.

VP/CD Report

Reported on area fun flies. Our May fun fly had a fairly good turnout with about 15 -20 pilots showing up throughout the day.

Treasurer's Report

Read and approved. We have 100 paid members. Motion made and approved to give the Dennis Osborn Family \$25.

Safety Officer's Report

No problems.

Old Business

Rules audit committee met prior to meeting. We will meet sometime in the next month or two to go over the findings and present to the club.

New Business

The Seward Aerobatic Club was looking for volunteers to help them with their air show the last weekend of June.

Please remember to be considerate of others when you fly. If you want to play music while you are flying, please keep it at a reasonable level or use a portable device of some sort.

Doc Lau has been taking care of the clubs non-profit status. We have to apply for non-profit status every 2 years. He said he didn't want to do it anymore and Jerry Robinson has volunteered to take over. Thanks Jerry and Thanks Doc.

New Members

We have one new member this month, Charles Lichtenberg. He flies foamies and helis. Welcome to the club.

Models of the Month

Jupe showed his Sopwith Pup built from a Balsa USA kit. Has a Zenoah G23 for power.

Alan Worrest had an altitude meter/timer for sailplanes. It can be set to kill the motor after a certain amount of time.

2013 Event Schedule

August 3rd-4th – Don Neill @ LSK

September 6th – Night Fly (after the meeting)

September 29th – Leonard's 57th Fun Fly

This is the schedule that has been approved. If anybody wants to add and run an event (i.e. Warbirds, Pattern etc.), please contact Justin Gebes 402-419-9590.
