President's Message

By Wilson Hardy

Spring is coming. In the news headlines there are only political scandals or some report of a global catastrophe happening, wars and plague, famine and floods. I can't watch the news anymore because of it all. Call me an escapist, call me naïve, call me an ostrich with my head in the sand, but I just have to get away from it all..... balsa dust, getting my fingers stuck in CA glue, plans, parts, building slowly something new, something beautiful emerges from my quiet shop. Dreams of flight.... Spring is coming.

No minutes were taken. While the conversation covered various subjects, the only thing I can recall being settled was to hold future meetings at Greg's Restaurant while the weather was cold. - A.W.

Planes Brought to December Meeting

Seated from left to right are: Bruce Jones, Jon Curran in the middle with his plane and Thane Kirchhoff. Jon describes the plane, "It is a ZOHD Dart Sweepforward Wing from Banggood...635mm FPV EPP racing wing. One of its interesting features is that the wings are held on with magnets and electrical servo connectors that easily separate, similar to the Thane's recent model."

Loren Blinde's Windfreak. Published in RCM Nov 1978 as a non-powered sailplane. Built from a plan on outerzone.co.uk. 100" wingspan with rudder and elevator control. Converted to electric. Loren says it flies good.
