

the L.A.S.S. Edition

November 2011

Secretary's Notes

by Tom Wild

President Loren Blinde called the October 4th 2011 L.A.S.S. meeting to order at 7:34 p.m. The minutes from the September meeting were accepted.

OLD BUSINESS:

Tom's Days event went well this year with many people in attendance. Talk of next year's event has started with plans to be at the same camping spot. We have been using this camping spot as a group area but it has a limit of two tents. The solution has been to register multiple camping sites.

The September 24th club event held at the Lancaster event center as seen in the October LASS Edition was well attended.

Janelle from the Willard Community Center has agreed to give the club a key to the front door but was not available on the evening of our meeting. Loren said he would contact her.

NEW BUSINESS:

The Western Flyers Club is hosting an Old Timers Event on Saturday October 8th at their club field outside of Mead NE. In the afternoon after a lunch break begins a glider event with electric wench for thermal launches and electric gliders welcome. The rain date for this event is October 15th.

OFFICER NOMINATIONS:

Allan Worrest reminds us per our club constitution October is the month to nominate new club officers. After

muttering and finger pointing Darin Kelstrom suggested those in office should serve another term and no one objected very strongly so that is how it sits for now. There is a chance Loren Blinde could fill the position of club treasurer for the Western Flyers who hold their meeting on the same night as LASS so there is a possibility of a conflict.

NEW MEMBERS:

Jerry Kenning joined our ranks while attending the September club event at the Event Center. Welcome aboard Jerry.

MODEL OF THE MONTH:

After the meeting adjourned Jack Barry showed off his Christmas present. Jack helped out a financially stressed pilot from California by taking over the payments on his Tragi 705 thermal ship.

Happy Thanksgiving

**CLUB MEETING Tuesday
November 1, 2011
7:30 p.m.
Willard Community Center
Folsom & West B Street
Lincoln, NE**

Newsletter of the Lincoln Area Soaring Society

October Show & Tell

Jack Barry brought his recently purchased Tragi to the October meeting. No radio equipment has been installed yet. The plane came with almost everything needed to complete the installation, including a wiring harness for the wing. The elevator and rudder servos mount on the vertical platform in the nose. Ballast goes in the opening at the rear of the platform.
