

2013 Fall Fun Fly

We had 34 registered pilots and it was very windy in the neighborhood of 20-25 mph. I came the closest to almost breaking even on all of the years I have ran the event thanks to some individuals that kicked in a little extra. Before anyone panics I run this event out of my own pocket taking no money whatsoever from the club. One of my coworkers came out and shot pictures of the event.
