President's Message

Fellow Flyers:

By now, most of you have heard the great news that the Omaha Parks Department will be resurfacing our runway this Spring at no cost to the club!! **We are ecstatic!**

## *Hawk Talk*

We can ensure this process goes well and as planned, plus use our limited funds to focus on other needed improvements. Let's keep the positive momentum going!

We are looking for volunteers in the following areas: Training (instructors, mechanics), meeting program leaders, new event leaders, prospect list follow-up, field work (spring) and club communications/outreach.

Please call me to discuss these volunteer opportunities (402-312-6482).

Looking forward to a fun, exciting and productive 2019 season!

Rick Sessions

Hi all,

At the Omahawks Board meeting this month there was some discussion about printing a new roster. We also discussed including a picture of the members in the roster. If you would like to have your picture included in the roster, please send a head and shoulder picture to

[Kevin Hyde](mailto:khyde@omahawks.net) <khyde@omahawks.net> email and send me a selfie or other picture you want included.

Thanks, Kevin

### Featured Article

I've asked as I did last year for our fellow members inputs into what air vehicles they are endeavoring to build over the winter while they are cooped up in their warm basements and workshops, replying this month to my request was Keith Kroeker with the following submission:

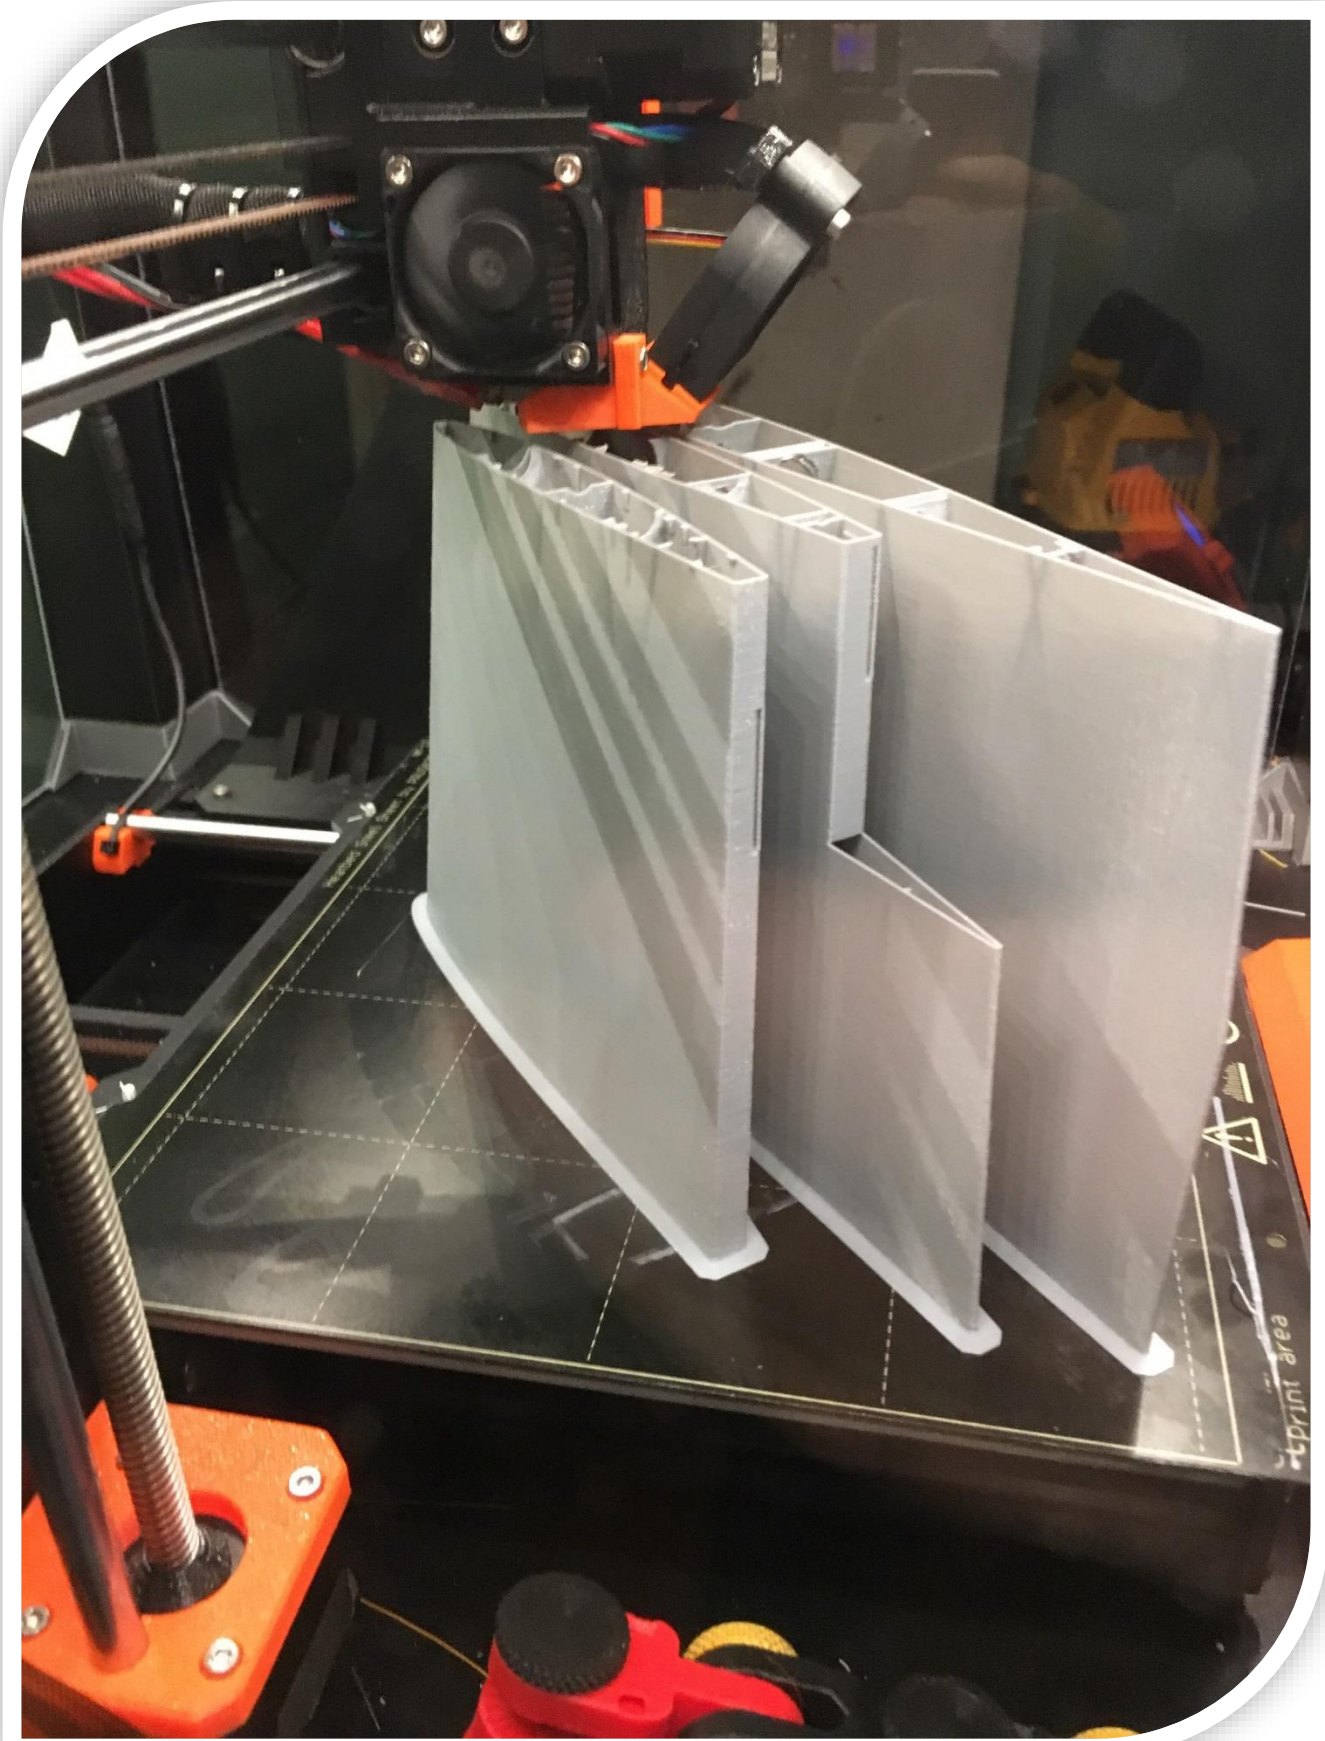

My bro-in-law and I are in the process of building a couple P-38's designed by 3D Print Labs. He is in the process of printing out all the pieces from PLA plastic and then we can start gluing them together. After it is assembled, we will install the recommended electronics and get them ready to fly this coming spring.

Attached are some photos of the planes parts as they are getting printed and some illustrations of the plane's final assembled forms. :)
