TAILSPIN NEWSLETTER

March 2008 Issue

President: Rick Miller

Phone: 402-624-2530 email: rick.miller@kellogg.com

Vice President / Tailspin Editor: Nelson Carpenter

Phone: 402-330-3249 email: nelsonsc3@cox.net

Treasurer: Ed Splitgerber

Address: 5046 S. 174th St. Omaha 68135 Phone: 402-896-1787

Secretary: Dustin Anderson

email: jeeper91@hotmail.com

A Word From The President:

Greetings RC buffs, hope all is well with those new projects for 08. Sure hope to see some of them at the March meeting's show and tell.

We need a good turn out of club members at this meeting in March folks. We need to stuff envelopes for the Auction Mailers and stamp them etc. This approach worked great last year. All of the envelopes were stuffed and stamped in no time. We still need to discuss and implement some detail plans for the Auction as well.

Please check your Futaba FASST (spread spectrum) type radios for internal program issues as per the Futaba Announcement.

Please come to the March meeting, its GREAT camaraderie and we need help in folding and stuffing the Mailers for the Auction this year.

See you at the meeting.

Thanks

~ Rick Miller

Vice-President's Corner:

The club's website has realized a complete makeover with Joe Halemek's revamping of it over the winter. Make sure you pay a visit to the website and see for yourselves.

The newsletter is a little sparse this month due to several reasons. Mostly inactivity of the club during a cold month of February. That included the cancellation of the February meeting due to a snow storm. So I've added some "Flash Back" photos from 2004 on a page below. Know anyone?

Our auction date is fast approaching. To make this work well, we need everyone's help. Please consider volunteering for even an hour or two at the auction. It will take the burden off of the few regulars who typically work the auction from start to finish. Thanks.

Come out and fly!

~ Nelson Carpenter

Next Meeting:

7:00pm Tuesday, Mar 4, 2008

**Location: Papio-Missouri River NRD Office
154th and Giles Road**

Treasurer's Report:

NOTE: Complete financial report to be presented at the March club meeting.

Thank You!

~ Ed Splitgerber

February Meeting Notes:

The meeting was cancelled due to weather conditions on February 5th. There was no make-up meeting.

Blue Skies

~ *Dustin Anderson*

Website: <http://www.weflyrc.org/>

News, Rumors, and Gossip

Okay, I went to the Lincoln Skynights Auction to get a few engines and came home with airplanes! I can't believe that I got caught up in Auction fever, I must be losing it!

The Laser 200 ARF retails at Hobby

Town for \$269 I want \$175 New in Box for this 1.20 to 1.50 Kit it look like a beauty and has lots of hardware!

The Cap 230 is for a G-62 the wing is one piece and is overall in excellent condition. Mount up engine and radio and go fly \$225 is the Hot Deal Price!

Anyone one interested in these can see them at my business in Millard just let me know and I will bring them to the office. My cell is 306-6151.

I did get a few engines and overall the auction went well. They had \$700 in donations which really helped bring the grand total up. They netted \$1800 not bad for a 4 hour auction. The Skynights are a fun group and I, Steve Peck and Fred Wilke did the Auctioneering. We had a good time on a cold day. But the warm food and good fellowship makes up for everything.

See Ya

~ *Bob Boumstein*

REWARDS PROGRAM

Remember to use **Hobby Town's Reward Program**. With every purchase by a WF member, the club receives a credit for an amount equal to 1 percent of your purchase. Be sure to mention your **Western Flyers affiliation** when making a purchase at either Hobby Town location.

From the AMA Insider January 2008 Issue:

Tips & Tricks

Good Cleaner

Here is a concoction I came up with. In an empty spray bottle, add a tablespoon of dish washing detergent, then fill the bottle halfway with regular rubbing alcohol, and top off with hot water. I have found this to work really well for cleaning the oil off of the wings and fuselage after a days worth of flying. Strong cleaner but will not hurt the covering or take the colors off.

New Life to Old Wire Landing Gear

Did you ever have a problem where your wire landing gear seems to get weaker and weaker? A possible solution is to remove the gear from the airframe and remove all the hardware from the gear wire (i.e. the wheels, collars, pants, etc). Preheat your kitchen oven to 450°F. Place the wire on a cookie sheet in the oven for one hour. Turn off the oven and toss the wire into cold water to cool it off quickly. What you have just done is to re-temper the music wire and you should have put new life into that old gear. Note that soldered joints should not be harmed as solder doesn't melt until about 700°F.

Mixing Epoxy

When mixing epoxy use an old coffee can lid, after the epoxy hardens just flex the lid and the epoxy will pop off.

For New Pilots

Something to pay attention to when learning to fly is control reversal. Control reversal is when the inputs on the transmitter sticks must be reversed when your airplane is flying toward you, rather than away from you. When flying away from you, there is no problem; just move the stick in the direction you want to turn. Many new pilots become disoriented when their airplane is approaching them. To help with this, move the stick in toward the low wingtip. This will level the wing when your airplane is coming toward you, avoiding a sharp bank and possibly a crash.

Example: Say your airplane is coming toward you, and the right

wingtip is low, as if banked to the right. Move the stick to your left, toward the low wingtip. This will bring the airplane's right wingtip up, and level the wing. I also recommend getting Real Flight G2 if you do not have it. Practice on that before you fly an airplane or helicopter for the first time or if you have been away for an extended period of time. It will save you money and heartaches in the future. →

From the Portland Area Sailplane Society, Gresham, Oregon Aviation History: Charlie Brown's Story

Charlie Brown was a B-17 Flying Fortress pilot with the 379th Bomber Group at Kimbolton, England. His B-17 was called 'Ye Old Pub' and was in a terrible state, having been hit by flak and fighters. The compass was damaged and they were flying deeper over enemy territory instead of heading home to Kimbolton.

After flying over an enemy airfield, a pilot named Franz Steigler was ordered to take off and shoot down the B-17. When he got near the B-17, he could not believe his eyes. In his words, he had never seen an airplane in such a bad state. The tail and rear section were severely damaged and the tail gunner wounded. The top gunner was all over the top of the fuselage. The nose was smashed and there were holes everywhere. Despite having ammunition, Franz flew to the side of the B-17 and looked at Charlie Brown, the pilot. Brown was scared and struggling to control his damaged and blood-stained airplane.

Aware that they had no idea where they were going, Franz waved at Charlie to turn 180°. Franz escorted and guided the stricken airplane to and slightly over the North Sea towards England. He then saluted Charlie Brown and turned away, back to Europe. When Franz landed he told the control operator that the airplane had been shot down over the sea, and never told the truth to anyone. Charlie Brown and the remains of his crew told all at their briefing, but were ordered never to talk about it.

More than 40 years later, Charlie Brown wanted to find the Luftwaffe pilot who saved the crew. After years of research, Franz was found. He has never talked about the incident, not even at post war reunions.

They met in the United States at a 379th Bomber Group reunion, together with 25 people who are alive now—all because Franz never fired his guns that day. Research shows that Charlie Brown lived in Seattle and Franz Steigler had moved to Vancouver, British Columbia, after the war. When they finally met, they discovered they had lived less than 200 miles apart for the past 50 years. →

SCHEDULED 2008 FLYING EVENTS

Western R/C Flyers **Spring Fun - Fly**
Saturday June 7, 2008
 Open Flying from 9:00am - 3:00pm

OMAHA, NE - AMA 857
