As amazing as it sounds, we heading out to Hawk Field at dusk for four full hours of flying in the dark! Electric aircraft, glow powered aircraft, and even large gas powered aircraft are all welcome, so long as they're well lit and can be flown in the dark.

Night flying will begin at 6PM and run until 10PM. Chili, chips, pop, and water will be provided for all participants. Feel free to bring coffee, hot chocolate, cookies, popcorn, or whatever else might suit your palette on a crisp November night.

A \$5 landing fee will be required for folks without a Hawk Field flying permit, and a current AMA membership card will be required by all. Please dress warmly, and bring a flashlight or lantern to help with setting up your aircraft. Due to the difficulty of searching the woods for aircraft at night, crashing is strictly forbidden!

See you there Friday, November 5th for a great night of flying!
