## **CLUB FLYING FIELD AMENITIES:**

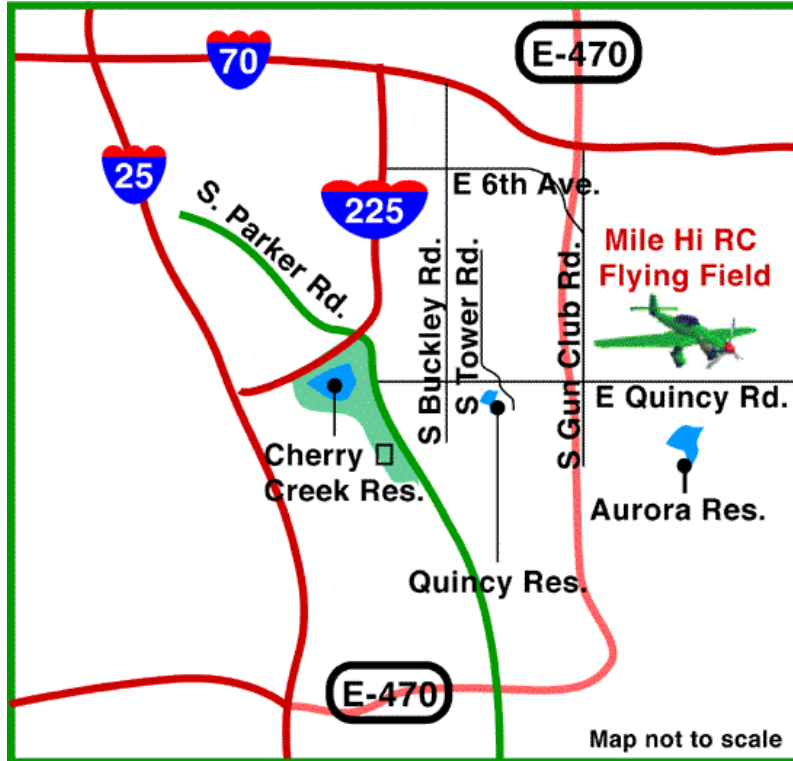

The MILE-HI field is a first class flying facility. It has two asphalt-paved runways. The North-South runway is 350 feet long and 30 feet wide. The East-West runway is 450 feet long and 40 feet wide. A covered transmitter impound board is available for safe keeping of radios. Sheltered pilot and picnic areas provide plenty of shade. For safety reasons a designated engine start up area has been provided at the entrance of the two runways. A paved pit area with numerous workbenches is available to make setting up your airplane as easy as possible. Designated parking and camping space surrounds the fenced flying site. A portable toilet is located at the field.

## **Prizes and Participation Rules:**

Fly-In awards will be presented for a 1st, 2nd, and 3rd place Pilots Choice, and a 1st, 2nd, and 3rd place Spectators Choice. In order to participate the rules are simple! Just bring any legal airplane to the FLY-IN and have it displayed throughout the day on the flight line for pilots to see. Fly it whenever you feel like it. Participating pilots will receive one ticket to vote during registration and are encouraged to take the time and wait for all participants to register. Once the pilots briefing has been finalized, pilots can cast their vote any time of the day. The spectator's choice will be done during the whole day of flying; spectators can see all planes on the flight line and will be contacted by Mile Hi RC representatives and presented a ticket for one vote. The spectators will be allowed to see the participating airplanes on the flight line during the lunch hour from approximately 12:00pm to 12:30pm, when flying will be suspended and the pilots are encouraged to display their airplane on the runway. This is also an excellent opportunity to take some great static photographs. This FLY -IN has generated numerous participants from clubs around the region and we encourage everyone to come out and show off their airplanes. The rules have been kept simple and relaxed. Come and enjoy our excellent flying facility. You might even run into one of your old friends. During the day, an abundance of additional door prizes will be given away!

## Flying Field Directions:

The Mile Hi R/C flying site is located east of Aurora, CO on Quincy Avenue approximately 1.5 miles east of Aurora Reservoir Recreational facility. From I-225 take Parker Road Exit, go south to Quincy Avenue; go east 4 miles past the E-470 underpass at Gun Club Road for another 3.5 miles. The field is located on left-hand side of the road. E-470 is now open and may represent a quicker or easier route to the Mile Hi RC Flying Field (exit Quincy and go east 3.5 miles).
